

ECOLABEL-CERTIFIED CHEMICAL PRODUCTS

ALKA ACTION

CONCENTRATED ALKALINE DETERGENT

141010114 - 1 LT. - 6 PIECES

141010115 - 5 KG - 4 PIECES

Concentrated alkaline detergent specific for extraordinary cleaning of stoneware floors and industrial floors. Low-foam product, removes grease, oils, sludge, etc. Ideal for production units, mechanical workshops, hospitals, supermarkets, engineering industries, salami factories, slaughterhouses, fishmongers, food industries, etc. Suitable for use within HACCP self-monitoring programs.

COMPOSITION:

Potassium Hydroxide, Sodium Silicate, Alcohols, C12-C16, Ethoxylated

HOW TO USE

Adjust the dosage according to the degree and type of soil to be removed.

- For extraordinary cleaning of normally dirty floors, dilute 1-2% of detergent in water
- In cases of sludge or particularly stubborn dirt, dilute up to 3-4%. In the points where the dirt is older or stratified, leave the product to act for a few seconds and insist several times with the mechanical action of the floor washing machine
- The product in high concentrations ruined aluminum, galvanized iron, and light-weight alloys, always try it in a corner of the material to check the compatibility of the product

PHYSICAL AND CHEMICAL PROPERTIES

CHARACTERISTICS

Appearance	Clear liquid
Color	Slightly straw-colored
Odor	Characteristic odor
pH (at 20°C)	13,0 ± 1,0
Specific Gravity (20°C)	1,20 ± 0,05 g/ml

For professional use only. Read the Safety Data Sheet carefully before use.
