Liquid detergent for washing dishes by hand, it has good emulsifying and dispersing power against oils and fats. Its formulation allows quick and safe cleaning and degreasing operations, without leaving a trace of grease on the dishes. Neutral pH product is active even in cold water and does not crack or dry the skin even if used for a prolonged period. Its characteristics make it suitable for use within HACCP self-monitoring programs.

HOW TO USE

Use directly on dishes. Run hot or cold water, wipe the dishes with a cloth or sponge and finally rinse.

- Dose 6 grams of product for each liter of water
- To remove stubborn grease and more resistant or stratified dirt, soak in hot water for 10-15 minutes
