

SHINY GEL

DESCALING DETERGENT

I41010116 - 750 ML - 12 PIECES

COMPOSITION:

Citric Acid Monohydrate

Perfumed buffered acid gel detergent for the cleaning and sanitation of toilets, squat toilets, tiled surfaces, floors and sanitary facilities. Formulated with buffered acids, the product rapidly dissolves organic residues, limescale deposits, oxides and encrustations that periodically form on WC bowls.

Its light gel consistency allows particularly effective action on vertical surfaces by extending the contact time between the product and the surface.

Do not use on marble or on surfaces that are not resistant to acids.

HOW TO USE

Ready-to-use product, use undiluted.

- Use pure formula for cleaning urinals and toilet bowls

PHYSICAL AND CHEMICAL PROPERTIES

CHARACTERISTICS

Appearance	Clear liquid
Color	Red
Odor	Characteristic odor
pH (at 20°C)	2,0 ± 1,0
Specific Gravity (20°C)	1,05 ± 0,05 g/ml

For professional use only. Read the Safety Data Sheet carefully before use.
